HENRY A. ROSE WITHDRAWS

WESLEY DAVIDSON WILL BE ST. CLAIR COUNTY'S NEXT SHERIFF.

Mr. Rose Satisfied That He Received Ma.

jority of the votes for St. Clair county were cast for Wesley Davidson for sheriff; and being so satisfied I do not

Sincerely yours, HENRY A. ROSE

returns, and making footings. Certifi-cates of election will be issued during the day and it is expected the board will adjourn this evening. After Mr. Rose's communication was

at 48, 19 more than the inspector's reports showed.

Will Investigate.
A remarkable case comes to light at
Elizabeth W. Va. An old man there by
the name of G. W. Roberts had long suffered with incurable cancer. Everybody believed his case hopeless until he used Electric Bitters and Bucklen's Arnica Salve. The treatment cured him comsaive. The treatment cured film com-pletely. Now everybody who knows of it is investigating Electric litters. It exerts a mighty power to expel bilious-ness, kidney and liver troubles and its a wonderful tonic for run down systems. Don't fail to try it. Only 50c. Satisfaction guaranteed by Grant Holden Drug-

TOLD WITHOUT A BLUSH.

Remarkable Threshing Machine incident

in Lynn Township. An account of the most remarkable threshing machine incident of the seaon comes from the farm of William Hodgson, in Lynn township, about nine miles west and south of Yale. It seems that the operators of Grant Welch's machine were threshing a small stack of wheat rakings in which an old setting hen had very cunningly stolen her nest. Her henship happen-ed to be "on" at the time, but the man pitching the rakings didn't know it. If he had, perhaps he wouldn't have pitched hen, eggs and all into the threshing machine. But he did, and the result of this sorry treatment is the nost remarkable part of the story.

up the straw carrier, and small frag-ments of delicious fried chicken came falling out of the grain spout, right be-fore the eyes of the surprised grain-tender. The egg shells were also sent up on the straw stack and downy little chickens came hopping out with a chirp on the opposite side of the ma-

The explanation of this apparent mirrole is simple. The cylinder in its rapid revolutions generated a large amount of heat. This heat fried the chicken and completed the hatching process of the eggs. The other parts of the machine simply performed their natural work.

Doesn't Respect Old Age. Its shameful when youth falls to show proper respect for old age, but just the in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age, dyspepsia, jaundice, fever, con stipation all yield to this perfect pill. 25c, at Grant Holden's drug store.

JUDGE TAPPAN LEAVING.

To Take Up His Residence in Port Huron.

A smoker was held in Central hall Friday evening, November 21st, gotten up by the business men and citizens of Mr. Rose Satisfied That He Received Ma.

Jority of Votes.

After The Times went to press on Monday afternoon Henry A Rose presented the following communication to the St. Clair county canvassing board:
Port Huron, Micn., Nov. 24, 1802.
To the Board of Canvassers of St. Clair County:—
Gentlemen—The recount has progressed far enough to satisfy me, beyond all reasonable doubt, that a majority of the votes for St. Clair county were cast for Wesley Davidson for

jority of the votes for St. Clair county were cast for Wesley Davidson for sheriff; and being so satisfied I do not feel that any further expense should be incurred in the matter.

I therefore request that the recount be declared off and the majority of the votes be declared for Wesley Davidson and that a certificate of election be issued to him in compliance with the law.

Sincerely yours,

HENRY A. ROSE.

I token of appreciation of his services to and his interest in the village of Yale during his residence here.

"Mr. Tappan, you are here to-night at my request, that your friends might have an opportunity of bidding you a personal good-bye. It is not only now we realize the fact that you have been elected to the important position of Circuit Judge, for this County. Your election to this office necessitates your removal from our midst. The busi-The board had counted during the ness, social and friendly intercourses The board had counted during the ness, social and friendly intercourses afternoon the townships of Clay and Kenockee. Mr. Rose gained in one township and lost in another.

When Mr. Rose asked the board to stop counting the ballots of the county Wesley Davidson was 47 ahead. The board is in session today checking the returns, and making footings. Certificates of election will be issued during the cates of election will be issued to the categories of election will be issued to the categories of the cate thought it fitting that they should present you with some token of their appreciation of your worth as a citizen. And let me say with this token goes the warmest sympathies and heartiest all of the election inspectors brought to Port Huron that they could take the warmest sympathies and heartiest God Speed both to you and your family, and it is our fervent Lope that in their boxes home with them.—Port Huron Daily Times, Nov. 25. Huron Daily Times, Nov. 25.

The county board of canvassers met at the county clerk's office Wednesday forenoon, made the proper footings, signed certificates of election, and adjourned sine die. It was decided to place the majority of Wesley Davidson, Democratic candidate for Sheriff, of the universe, who doeth all things Democratic candidate for Sheriff, of the universe, who doeth all things well, give you wisdom and strength that you may be better enabled to per-form the high duties of your office with

dignity to yourself and honor to the people by whom you were elected. Personally I regret your removal from our midst from the fact that I am losing a business associate and the town a worthy citizen. I rejoice in the fact that our loss will be Port Huron's gain, and we hope that some time in the future that you may return in health and strength to again re-estab-lish the business and social relations that are at least for the present temporarily severed.

The judge was quite overcome, and in responding said that never in his life had he been so surprised as on this occasion, and that he was almost at an utter loss for words to express his gratitude for the many kindnesses be had received at the hands of Yale citizens. He thanked them all for the rich gift he had received, and assured them that most highly would be prize it.

Several citizens were called upon who made brief, happy little speeches, relating anecdotes and stories, and then with general conversation and pleasan tries the large room became gradually blue with smoke from many cigars, while those who did not smoke were satisfied with oranges, bananas and grapes, and later good nights were said and the evening was over.

DEATH'S DOINGS.

Sarah Jane Carl died at her home in

William Brown, aged 40 years, died at Fargo on Monday, Nov. 24, and was buried in Spring Hill cemetery on Wednesday. The funeral services were held at the M. P. church, Fargo, Hev. Kinney officiating Deceased was a member of the L. O. L.

Oscar Barrett, son of David Barrett, formerly a Yale resident, died in the hospital at Port Huron on Wednesday Nov. 25 at the age of 25 years. Cause, typhoid fever. The remains will be brought to Yale on Saturday for burial.

Dr. Warner Cornell, Eye, Ear, Nose and Throat Specialist, of Port Huron will be at "The Paisley" Yale, the second Friday in each month.

The 20th Century Laurels.

fluene stack and all grades of soft coal without smoke or soot.

THE COMMON STOVE—in the common stove, with the draft litrough the grates, all the small in the fire pot is on three and therevier of the smaller, sool and gases that have always made soft east objectionable for house use, bosides wasting the targe amount of heat they contain.

washing the targe amount of heat they contain.

NOT A SMOKE CONSUMER.—There have been and are being placed on the market many so called anoke consumers that consume it to a more or less extent. The 28th Century Laure is well a snoke consumer, for the manner in which it causes the fort to burn does not produce either

smoke or soul.

THE WAY IT BURNS.—If you place soft east in an over healting it to a certain temperature, the gases will be liberated and coke formed. To the 28th Century Laurel the draft enters the fire chamber through the slots in the fire post, careing the road to burn entirely and only a round list outside, thus enclosing the green coal in a circle of intense lead, the same as if is no over, and the result is that as the fired burns from the outside toward the center it keeps throwing of gas and coking the east about it. The hot all from the air bhast ring and soles uniting with the gases causes them to burn, producing a continuous gas and coking from the horse, and never any clinkers.

HEARS THEFLOOK.—The lastices part of the fire being always against the fire pot, the greater part of the heat is radiated from it downward, busting the floor as well as a base burner does.

ECONOMY.—Two to three tons of slack will heat the or-dinary size house, giving as continuous and uniform a heat as heretofore could only be obtained with hard coal. DUILABILITY.—This is the only construction where air is admitted over the fire that will stand for any length of time. Our fire pot is practically indestructable. We guar-antee it for five years.
